About MBA Tarim

Founded in 2021, MBA Tarim is a forward-thinking agricultural company that combines traditional farming expertise with advanced digital technologies.

By integrating smart systems into production, we ensure traceability, efficiency, and sustainability at every stage. From modern greenhouses to expansive orchards, MBA Tarim operates with the vision of not only producing but transforming and managing agriculture for the future.

Mission & Vision

Our Mission

To enhance Türkiye's agricultural competitiveness through advanced farming techniques and digital solutions, ensuring quality, trust, and sustainability from producer to consumer.

Our Vision

To work in harmony with nature, leverage data to optimize cultivation, and lead agriculture towards a sustainable global future.

Certifications

Global G.A.P

GRASP

BRC

Good Agricultural Practices of Türkiye Ensuring top quality, food safety, and sustainable farming.

Brand — Gala Fresh

Our premium brand stands for care, freshness, and trust. Hand-picked and cold chain preserved, combining nature's harmony with modern technology.

Production Areas

Blueberry Orchards

Our blueberry farms span 34 hectares across Kocaeli, Afyon, and Mersin, each carefully adapted to the region's unique climate and soil. In Mersin, we cultivate one of only seven rare varieties in Türkiye, strengthening our export potential and contributing strategically to the country's agricultural diversity.

Production Areas

Walnut Orchard

Combining soil analysis, drip irrigation, and phenological monitoring, our 30-hectare walnut orchard in Karamürsel delivers reliable yields and premium nuts under the registered “Karamürsel Walnut” brand.

Production Areas

Tomato Greenhouse

In Serik, Antalya, our 12-hectare high-tech greenhouse combines Spanish Gothic design with cutting-edge systems for maximum efficiency. Soilless cultivation and precision irrigation ensure premium quality harvests.

Production Areas

Banana Greenhouse

Designed to replicate natural tropical conditions, our 5-hectare climate-controlled banana greenhouse in Antalya ensures consistent quality year-round. Advanced automation manages temperature, humidity, and wind, protecting each plant and enhancing both local supply and export potential.

Production Sites

01 — Antalya Tomato Greenhouse and Packing House 12 ha

02 — Antalya Banana Greenhouse 5 ha

03 — Sandıklı Blueberry Orchard and Packing House 12 ha

Products

Cherries

Our premium cherries are hand-picked at optimal maturity to ensure maximum firmness, shine, and sweet flavour. Known for their deep red colour and large size (typically 28+ mm), they are carefully sorted and packed to meet export quality standards. Grown in high-altitude regions of Türkiye, where cool nights and sunny days contribute to excellent texture and extended shelf life.
